Soccer time is here! Our goal is to provide a chance for girls and boys to learn skills and to play soccer, the world's most popular sport. Kids of any size and skill level can be successful at soccer, which means all kids can compete in soccer.

A youth program should be as its name implies: a program for kids! We encourage everyone to participate at each game. Soccer should be a child's first sport because kids can feel good about themselves while improving their skills, stamina, and endurance.

By the very nature of the activity, gymnastics carries a risk of physical injury. No matter how careful the gymnast and coach are, no matter how many spotters are used, no matter what height is used or what landing surface exists, the risk cannot be eliminated. Risk can be reduced, but never eliminated. The risk of injury includes minor injuries such as bruises and more serious injuries such as broken bones, dislocations, and muscle pulls. The risk also includes catastrophic injuries such as permanent paralysis or even death from landings or falls on the back, neck, or head.
